

## **IMPORTANT INFORMATION TO BUYERS**

### **BEWARE OF COPIES ON MARKET!**

Vulkan 3F – First three-phase ion boiler had firstly appeared in Company “Ekoterm 2001” based on following mono-phase boilers work from Russian submarines and ships. We note that Russia never had this kind three-phase boiler.

The market is in misapprehension that three-phase boilers had first appeared in Russia. Certain companies produce them as “Ekoterm 2001” three-phase boiler copy, and advertise them as Russian product, which is false in any case, performance of those boilers are a lot weaker than originally boilers of Company “Ekoterm 2001”.

With this text we enclose a document that shows a year in which our boiler is accepted and allowed for selling at Serbian market:

1. Date from technical assessment (page 2)
2. Getting first international award from B.I.D. (page 3)

Since the sale of revolutionary boiler Vulkan 3F had began, many companies appeared after 2-3 years with fake boilers, advertising them as original Russian boilers and their patents.

**We are noting again, Russians only had mono-phase boiler, and three-phase boiler is Serbian product invented in Company “Ekoterm 2001”.**

When buying from other companies, ask for a proof about the date putting that product on market, but make sure it is original document (there are forgery documents).

Company “Ekoterm 2001” worked intensively for 4 years on inventing three-phase boiler, and releasing it to official sale. From 1999<sup>th</sup> to 2003<sup>rd</sup> year when it is released for selling.

Mono-phase boiler was mostly on Russian market before our three-phase boiler, for around 15 years. Three-phase boilers of Company “Ekoterm 2001” had repressed mono-phase boilers and completely improved ion boilers work.

After inventing Vulkan 3F, in development of Company “Ekoterm 2001” soon came out boilers Vulkan 2F and Vulkan 9F, also all kind of Termobloks.

At this moment, Company is working on new projects and further improving products.

Dear Sir:

The International Selection Committee of B.I.D., Business Initiative Directions, made up of a group of companies and prestigious professionals, has decided this year, during the 29th International Star Award Quality Convention Paris 2005, to present the **International Star Award for Quality** in the **Gold Category** to EKOTERM.

The awards presentation will take place in **Paris, France**, during the International Star Award Quality Convention on Monday, January 24th, beginning at 18:30 in the evening, in the Convention Hall at the Concorde La Fayette Hotel, one of the most modern and spectacular hotels in France. It will be attended by other companies from all over the world who will receive the awards in the gold, platinum and diamond categories, together with outstanding leaders from different business fields, quality experts, personalities in the realm of culture and members of the diplomatic corps. The most significant moments of the participation of your company representative in the event will be covered by reporters, television cameras and photographers for the media.

With its corporate programs, B.I.D., Business Initiative Directions, provides continuous endorsement to companies in 166 countries awarded in previous years which have benefited from the promotion generated by the B.I.D. International Star Award for Quality. The award serves to increase public awareness of your company's commitment to quality.

Attending the convention offers your company an opportunity to convert the award into a communication symbol. For this purpose, we are enclosing participation conditions and the scheduled program.

Thus, to confirm your attendance at the ceremony, please send the completed Registration Form (see the back of the enclosed sheet of information) by fax to Madrid, Spain.

Sincerely,

Jose E. Prieto  
President
